

# Paediatric Summary Information Sheet

	<b>Suggested forms of evidence</b>	<b>Tell us how you have met this outcome</b>	<b>Where in your portfolio can this evidence be found?</b>	<b>Assessor's rating and comments on evidence (Meets/partially meets/does not meet)</b>
<b>1. Biological science relevant to paediatric dentistry</b>	<b>MPaedDent WBA</b>			
Normal and abnormal growth and development; Principles of Genetics; Cell biology.				
<b>2. Health education/promotion and epidemiology relevant to paediatric dentistry</b>	<b>MPaedDent PDP</b>			
Health education and promotion; Epidemiology, survey design				
<b>3. General paediatrics, paediatric subspecialties, medically compromised children, and adolescents and those with special needs</b>	<b>MPaedDent WBA PDP 360</b>			
General Paediatrics and children/adolescents with special needs; Medically compromised children/adolescents; Transition from paediatric to adult services.				

<b>4. Behavioural science and behaviour management relevant to paediatric dentistry</b>	MPaedDent WBA			
General behavioural concepts; Inhalation sedation; Other sedation techniques; General anaesthesia (GA)				
<b>5. Diagnosis and treatment planning for children and adolescents</b>	MPaedDent WBA			
Diagnosis and treatment planning for different age-groups				
<b>6. Prevention and management of oral disease</b>	MPaedDent WBA			
Caries; Non-cariou tooth surface loss (TSL); Periodontal disease; Effects of smoking and drug, alcohol, and substance abuse.				
<b>7. Oral Pathology, Oral Medicine and Oral Surgery in children and adolescents</b>	MPaedDent WBA PDP			
Oral pathology/oral medicine; Management of impacted and supernumerary teeth				

<b>8. Restorative techniques in children and adolescents</b>	MPaedDent WBA			
Restoration of dental hard tissues; Periodontal therapy				
<b>9. Dento-alveolar and Maxillofacial traumatology in children and adolescents.</b>	MPaedDent WBA			
Maxillofacial, soft tissue and dental-dento-alveolar injuries				
<b>10. Multidisciplinary and multi-agency collaboration in paediatric dentistry</b>	MPaedDent WBA			
The multi-disciplinary team; Interceptive orthodontics; Cleft lip and palate (CLP); Craniofacial anomalies; Child abuse and neglect (child maltreatment)
